

Duhig

STAINLESS

Announcement

Duhig Stainless is pleased to announce the addition of **Hy-Lok Instrumentation Fittings & Valves** to our product lines. These high quality, Double Ferrule compression fittings are completely component “Intermixable” with products of the same design offered by other major manufacturers.

Hy-Lok

www.hy-lok.com

Hy-Lok Double Ferrule compression tube fittings provide leak-free performance for the most demanding applications. **Hy-Lok** tube fittings are commonly used throughout the oil and gas, pulp & paper, petro-chemical/chemical processing, research laboratories, aerospace and defense, chemical processing, power generation, cryogenic and semiconductor, shipbuilding and heavy industrial industries. Available in 316SS, Brass, Steel.

Hy-Lok manufactures an extensive line of Instrumentation Valves to meet the most difficult of applications. Ball valves, Metering & Needle valves, Check valves, Relief valves, Manifold valves, Plug valves, Toggle valves and Filters. Valves are designed to meet the highest quality and performance standards for instrumentation, control and process applications. End connections that include compression, pipe thread and weld.
